

PRINT MEDIA KIT

Real Estate magazine is a unique media platform that covers all current topics in real estate and related industries, as well as design and lifestyle, through its print and digital interactive magazine format, web portal and official social media accounts (FB, Instagram, LinkedIn).
The magazine is available in separate editions in Serbian and in English.

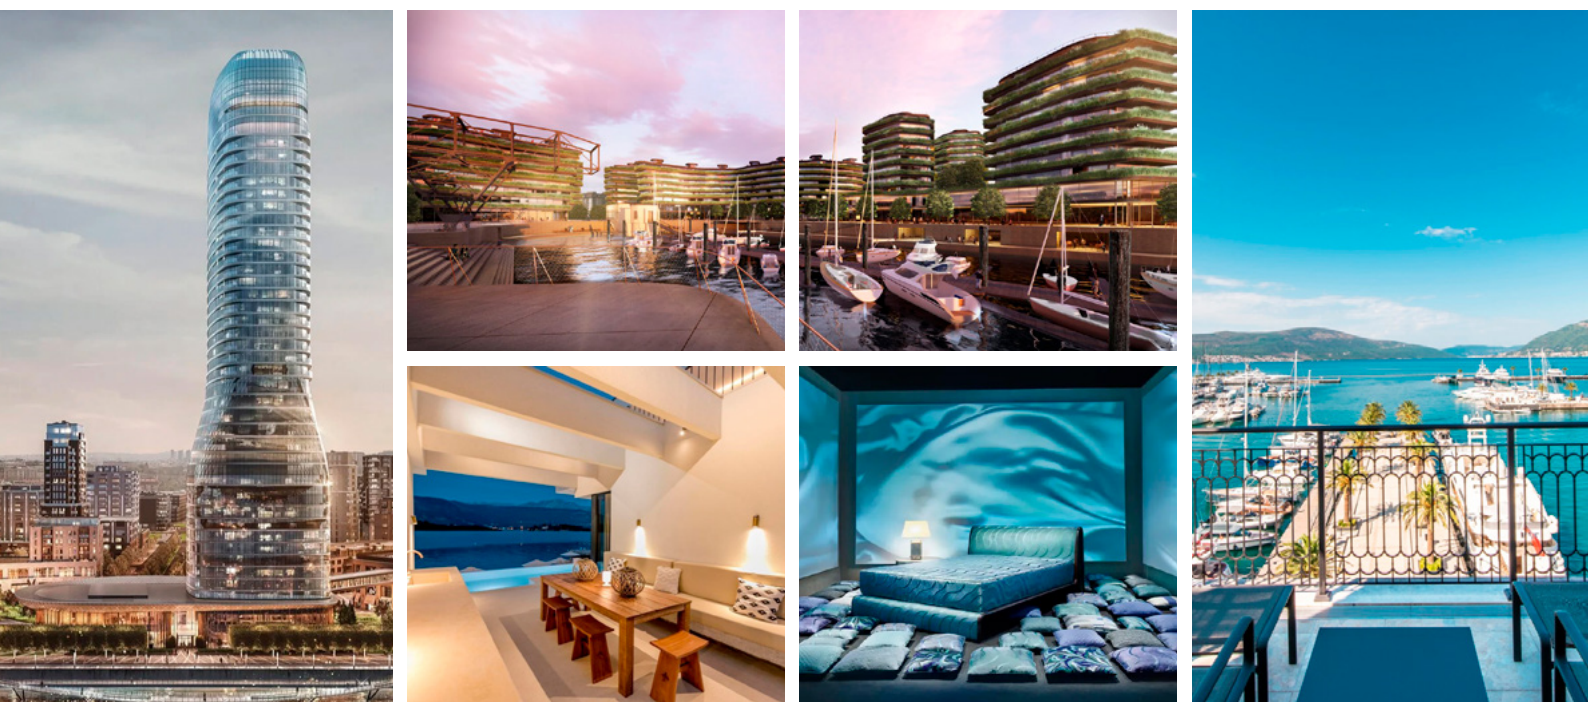

Through our regular and special editions, we keep up with all the latest news and trends in the real estate business around the world and in our country. We share information from the real estate market and connect all companies and institutions from Serbia and the region involved in this massive business chain: investors, construction companies, architects, designers, furniture manufacturers, manufacturers and importers of construction materials, interior furnishing companies, banks and insurance companies, competent state institutions, brokerage and consulting companies, appraisers, real estate agencies, and business associations, all the way to the end user – buyer or tenant.
